SECTION MEETING
(Lunch will be provided courtesy of SW GAS CORP.)

WHERE: Southwest Gas Corp
3401 E. Gas Road
Tucson, AZ 85714

WHEN: Wednesday
December 18th 2019
11:00 AM to 1:00 PM

SPEAKER
Mr. Jim Kunkle from SSPC
Topic
“Proper Surface Preparation VS 80% Protective Coatings Failures”

This presentation: “Improper surface preparation (steel, concrete, non-ferrous metals) will result in reduced protective coatings integrity and service life. As much as 80% of coatings and linings failures are directly attributed to improper surface preparation. The presentation by Jim Kunkle from SSPC: The Society for Protective Coatings will cover industry standards and best practices associated with proper surface preparation.”

RSVP: Please RSVP by December 13th - Select “Reply” when responding to this email.
(If you’ve already responded, we’re holding a place for you.)

Please pass this notice along to others in your organization who may be interested in attending.
